

## **PEST CONTROL PRODUCTS BOARD**

### **I. ORGANIZATION/FORMATING OF LABEL**

#### **1. COMMERCIAL LABEL**

The following is the information that must appear and how it should appear on the display panels.

##### **(a) Principal Display Panel**

- (i) - Trade name of the products
  - Its physical form
  - Purpose of use
- (ii) Statement “READ THE LABEL BEFORE USING” Must appear prominently in capital letters.
- (iii) Statement “KEEP LOCKED OUT OF REACH OF CHILDREN” to appear prominently in capital letters.
- (iv) Class designation – must appear in capital letters as follows:
  - RESTRICTED CLASS
  - COMMERCIAL AND AGRICULTURAL CLASS
  - DOMESTIC CLASS

Basis of classification must be on the criteria as prescribed in the Act.

- (v) “GUARANTEE” Statement as prescribed in the Act.
- (vi) Nature and degree of hazard inherent in the pest control product and shown by a precautionary symbol and signal word.
- (vii) REGISTRATION NO.PCPB(R)/(P) to appear prominently and distinctly apart from AAK membership No. preferably near the product name.
- (viii) Net content
- (ix) Name and address of Registrant, Local Agent, Manufacturer, or Distributor
- (x) Date of Manufacture
- (xi) Shelf life in original unopened container. No Maximum or Minimum shelf life period should appear
- (xii) AAK Logo and membership No.
- (xiii) Batch No. which does not have to be printed.

(xiv) Pictograms and Colour Codes.

b) Secondary Display Panel

- (i) Brief description of product.
- (ii) Directions of use that must include dosage rate in amount of formulation per unit area and the spray volume.
- (iii) Significant hazards respecting handling, storage, and procedures to alleviate the hazards.
- (iv) Decontamination procedures
- (v) Disposal of product and empty containers
- (vi) Significant hazards to things the product is to be used, public health, plants, animals and environment and how to alleviate such hazards.
- (vii) FIRST AID INSTRUCTIONS – in capital letters.
- (viii) TOXICOLOGICAL INFORMATION/NOTICE TO DOCTOR.
- (ix) NOTICE TO USER\* - To appear as stated in the Act.
- (x) Sellers Guarantee – To appear as stated in the Act.

2. EXPERIMENTAL LABEL

Must accompany all samples for testing or research.

Should be clearly typed and attached firmly to sample packages at all times.

Should have the following information.

- Read the label before using
- The statement “For experimental use only”
- The statement “Not for sale”
- The name, brand, Trademark of product
- Guarantee – a.i.
- Statement “Keep locked out of reach of Children”.
- Hazard warning & Precautions
- Net contents
- Name & Address of Manufacturer or Agent
- Notice to user “This pest control product is to be used ....” as in the Act.
- Disposal and decontamination methods
- First Aid Measures and toxicological information

Any other information necessary to ensure safe and effective use of product during testing or research.

NB: Instead of direction of use – there should be Testing protocol and MSD for the Testing Institutions.

**II. LANGUAGE OF LABELS**

The Pest Control Products Act requires that information on every label shall be printed in both English and Kiswahili languages. However, due to lack of enough space especially on the small packs and non existence of appropriate or standardized Kiswahili translation

of some scientific words, it was agreed that the label be translated as follows, and the translations appear side by side.

**1. PRINCIPAL PANEL**

- (a) Trade name of product - English
- (b) Physical form(formulation) - English
- (c) Purpose of product - English/Kiswahili. The translation of this should be simple e.g. insecticide = “kiuwa dudu”. A descriptive translation can be given on the secondary panel.
- (d) KEEP LOCKED OUT OF THE REACH OF CHILDREN - English/Kiswahili
- (e) Class designation RESTRICTED COMMERCIAL & AGRICULTURAL, DOMESTIC - English
- (f) Nature and degree of Hazard - English/Kiswahili
- (g) READ LABEL BEFORE USING - English/Kiswahili
- (h) GUARANTEE Common name of a.i - English  
Content of a.i. - English
- (i) REGISTRATION No. - English
- (j) Net Contents - English
- (k) Name and Address of Registrant, Manufacturer, Agent distributor - English
- (l) Manufacture/formulation date - English
- (m) Shelf life (in original unopened containers). - English/Kiswahili-translate as “Maisha Rafuni”
- (n) Batch No. - English
- (o) AAK Logo % Membership No. - English

**2. SECONDARY PANEL**

- (a) Brief description of product - English/Kiswahili
- (b) Directions for use - English/Kiswahili
- (c) Significant hazards respecting handling, storage and how to alleviate the hazards. - English/Kiswahili

- (d) Decontamination procedures - English/Kiswahili
- (e) Disposal of product & empty containers - English/Kiswahili
- (f) Significant hazards to things products to be used, public health, animals, plants or environment and how to alleviate the hazards. - English/Kiswahili
- (g) First aid instructions - English/Kiswahili as (“maelezo ya huduma ya kwanza”)
- (h) Toxicological information - English
  - Antidotes & remedial measures - English
  - Symptoms of poisoning - English
  - Ingredients that may affect treatment - English
  - Notice to doctor - English

Although this entire section on Toxicological information will be in English, a finishing line in Kiswahili should be added to read: PELEKA MJERUHI KWA DAKTARI.

(i) NOTICE TO USER

This pest control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use or store a pest control product under unsafe conditions.

ILANI KWA MTUMIAJI

Dawa hii sharti itumiwe kulingana na maangizo yaliyo kwenye kibandiko. Ni hatia chini ya sheria za madawa ya kuangamiza wadudu waharibifu kutumia au kuhifadhi dawa hii katika hali isiyo salama.

(j) SELLER’S GUARANTEE(WARRANTY)

### **III. PICTOGRAMS AND COLOUR CODES**

The following was agreed between AAK members and Pest Control Products Board secretariat.

1. Pictograms and colour codes shall be included on the primary panel in all labels.
2. Pictograms so included must relate to the product text.(MSDS)
3. Minimum size of pictograms shall be 7mm x 7 mm.
4. Storage and wash after use pictograms must appear in every label.
5. Starting from the center, the activity pictogram shall precede followed by advice pictograms boxed together e.g. mixing followed by relevant pictograms.
6. The hazard symbol and word shall be symmetrically placed within the toxicity colour band, separating storage and mixing pictograms from spraying, washing and others if necessary.
7. Face shield shall be used instead of eye goggles, overalls sleeves worn over gumboots other than sleeves tucked inside boots, and running water instead of basin water.
8. Colour codes shall be used to band the pictograms on all labels and the colour so used shall relate to the toxicity of the product as follows:-
  - (i) Red(very toxic & toxic)
  - (ii) Yellow(Harmful)
  - (iii) Blue(Caution)
  - (iv) Green(Caution)
9. The colour band so used shall not be repeated elsewhere on the main panel.

### **IV SMALL PACK LABELS**

The following was agreed:

- All pesticide packages of whatever size and by extension label must be approved by the Board as provided for in Legal Notice No.89.
- Glass packages should be avoided for pesticides unless there is no alternative.
- Leaflets and brochures should be used if all the information cannot fit onto the package.
- The print size should be at least size 7.
- The brochure or leaflet must be firmly attached to the package.
- Where the label information is in brochure/leaflet, the display panel should contain the words in capital letters, “READ THE ATTACHED BROCHURE BEFORE USE” prominently displayed.

**Pack sizes were divided as follows;**

1. 500ml/gm – 100ml/gm

- All the information from the primary panel should be on the package.
- Statement: “Read the attached brochure before use”.
- All the information from the secondary panel should be on leaflet or brochure attached to packages.

2. Below 100gm/ml

The package should have;

- Name of product and formulation
- Registration No.
- Net Contents
- Read the label before using
- Keep locked out of reach of children
- Hazard symbol and precautionary words
- Read the attached brochure before use

The rest of the label information should be on the leaflet or brochure.
