## RE: PRODUCTS FOR THE CONTROL OF MILLIPEDES

The Board wishes to draw your attention to the development of millipedes as pest of economic significance in parts of Central and Coast Provinces in areas such as Laikipia, Kieni East & Lamu Districts. Some of the affected crops are irish potatoes, snow peas and maize.

There is currently no product registered for use in the control of millipedes in Kenya.

The Board is prepared to facilitate the extension of label uses for existing registered products and the registration of new products that could be effective in the control of this pest and therefore minimize losses potential to spread.

Thank you.

  
**Gladys N. Maina**  
**MANAGING DIRECTOR/SECRETARY**
